HEALTHCARE VALUATION + ADVISORY SERVICES

# Message from the founder

---

I founded Root Valuation to offer clients a more hands-on, consultative approach to valuation and financial advisory engagements. My strong belief is that this is the only way to develop practical, well-reasoned, and defensible positions that will withstand scrutiny if ever challenged.

This same philosophy guides our approach to litigation and dispute resolution services. Our team stands ready to work hand-in-hand with counsel and other experts to develop honest and compelling positions to help bring about a fair and timely resolution to healthcare disputes.

And if called to testify, it is my promise that we will defend our position with expert testimony that is authoritative and understandable to the trier of fact.

If you are interested in learning more about our litigation and dispute resolution service, please give us a call at [720.458.3777](tel:720.458.3777).
